

Explore Mekong Delta Immersion

📍 Vinh Long, Vietnam

Project Highlight: Social house building, solar energy lighting access, health education.

Community Impact: *Bringing real benefits to underprivileged communities*

The social and economic conditions in Vinh Long Province make the work of Discova Educational Travel particularly important. The provision of the family strengthening programme, family-based care, education, and support into adulthood has continued to improve the lives of people who lack access to even the most basic facilities like a house and a stable livelihood, or ways to ensure a good education for their children. Since 2014, Discova Educational Travel (DET) has contributed to the following long-term projects:

- Building 39 new houses for the local community in these areas.
- Cooperating with universities, NGOs, Vinh Long City Hospital, Vinh Long Healthcare Department, to provide healthcare for over 20 communities in Vinh Long Province.
- Providing healthcare insurances for over 300 people.
- Donating 35 new bicycles for disadvantaged students.
- Setting up 20 solar light in the villages

Culture Activities

- Colonial hat making
- Cake making
- Farming Experience
- Talent show
- Mekong boat trip
- Boat Racing

Learning Outcomes

1. Getting out of comfort zone
2. Teamwork for project achievement
3. Leadership skills
4. Learning about Nam Bo contemporary culture
5. Engaging on issues with global significance

United Nations Sustainable Development Goals
